Independent Auditor's Report

To the Hartford Public Library Board
Hartford, Michigan

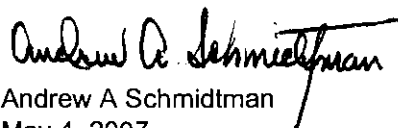

I have audited the accompanying basic financial statements of the Hartford Public Library as of and for the year ended December 31, 2006, as listed in the table of contents. These basic financial statements are the responsibility of the Hartford Public Library's management. My responsibility is to express opinions on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinions.

In my opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the Hartford Public Library as of December 31, 2006, and the changes in financial position for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and the budgetary comparison schedule, as identified in the table of contents, are not a required part of the basic financial statements, but are supplemental information required by the Government Accounting Standards Board. I have applied certain procedures, which consist principally of inquiries of management regarding methods of measurement and presentation of the supplemental information. However, I did not audit the information and express no opinion on it.

As described in Note 7, the Library has implemented a new financial reporting model, as required by the provisions of Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments as of January 1, 2006.

HARTFORD PUBLIC LIBRARY
MANAGEMENT'S DISCUSSION AND ANALYSIS

Basic Financial Statements

This annual report consists of three parts: management's discussion and analysis, the basic financial statements, and the required supplemental information. The basic financial statements include information that presents two different views of the Hartford Public Library (the "Library"):

The first column of the financial statements includes information on the Library's General Fund under the modified accrual method. These fund financial statements focus on the current financial resources and provide a more detailed view about the accountability of the Library's sources and uses of funds.

The adjustment column of the financial statements represents adjustments necessary to convert the fund financial statements to the government-wide financial statements under the full-accrual method.

The government-wide financial statement column provides both long-term and short-term information about the Library's overall financial status. The statement of net assets and statement of activities provide information about the activities of the Library as a whole and present a longer-term view of the Library's finances. These statements tell how these services were financed in the short-term as well as what remains for future spending.

The basic financial statements also includes Notes that explain some of the information in the financial statements and provide more detailed information.

The required supplemental information follows the basic financial statements and provides additional information related to the general fund.

Condensed Financial Information

The following provides financial information in a condensed format using the full-accrual basis of accounting. This year's report does not provide prior year comparative data because this is the first year for the Management's Discussion and Analysis. The comparative financial data will be provided in future years.

Change in net assets	<u><u>\$59,016</u></u>

HARTFORD PUBLIC LIBRARY
MANAGEMENT'S DISCUSSION AND ANALYSIS

(Continued)

Hartford Public Library as a Whole

The Library's net assets increased by \$59,016 during the year. Revenue increased by 11% this year and expenses decreased by 7%. An increase in property tax revenue from Hartford Township and an increase in interest income accounted for most of the revenue increase. A decline of wage expense accounted for most of the decrease in expenses.

The Library's primary sources of revenue are property taxes and fines (both library fines and penal fines). These items combined to account for 89% of total revenue. The revenue from fines will vary from year to year depending upon fines assessed and collected by the courts.

Personnel expenses are a significant cost to the Library. Wages, payroll taxes, and employee health insurance represent 67% of total expenses. Other significant expenses include utilities and liability insurance.

Hartford Public Library's Fund

An analysis of the Library's major fund is included in the financial statements in the first column. This column presents information about the Library's General Fund. The fund balance of the General Fund decreased during the year by \$39,963. The decrease in fund balance includes expenditures for capital outlays of \$111,758.

Budgetary Highlights

The Library Board reviews the budget and actual expenditures during the year to monitor how the budgeted expenditures compare with the events that occur during the year. The Library Board amends the budget as necessary to reflect changes that occur during the year.

The most significant budget amendment for the year was the increase in the amount budgeted for capital expenditures. The Board approved a capital project to renovate the front porch and to improve the parking area.

Capital Assets and Debt Administration

At the end of the fiscal year, the Library had \$159,558 invested in land, buildings, building improvements, library collection, furniture and fixtures, and office equipment. The Library invested \$111,758 in capital assets during the year. The largest expenditure was \$97,651 for the renovation of the front porch.

The Library did not have any debt activity during the fiscal year.

Request for Information

This financial report is designed to provide a general overview of the Library's finances. Questions concerning the information provided in this report should be directed to the Library's management, Hartford Public Library, 15 Franklin Street, Hartford, MI 49057.

HARTFORD PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2006

Note 1 - Summary of Significant Accounting Policies

The Hartford Public Library (the "Library") is a district library located in the City of Hartford, Michigan and is governed by an appointed board. The City of Hartford and Hartford Township each appoints three members to the board. The Library provides services to the residents of the City of Hartford and Hartford Township. Services are also provided to a portion of Bangor and Keeler townships. The Library is primarily financed through tax levies, fines, state aid, and charitable donations. The revenue is used to staff and operate the Library.

The accompanying basic financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. Based on the significance of any operational or financial relationship with the Library, there are no component units to be included in these financial statements.

The accounting policies of the Library conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of the significant accounting policies.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The Library's basic financial statements include both government-wide (reporting the Library as a whole) and fund financial statements (reporting the Library's major fund).

Government-wide Financial Statements

The government-wide financial statements (i.e. the statement of net assets and the statement of activities) are reported using the economic resource measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The statement of net assets includes and recognizes all long-term assets and receivables as well as long-term debt and obligations.

HARTFORD PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2006

Note 1 - Summary of Significant Accounting Policies (Continued)

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Library considers revenues to be available if they are collected within 30 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences are recorded only when payment is due.

The General Fund is the Library's only major governmental fund. It accounts for all financial resources of the Library.

Financial Statement Amounts

Bank Deposits and Investments - The Library considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Capital Assets - Generally, capital assets are defined by the Library as assets with an initial cost of more than \$100 and an estimated useful life in excess of one year. The cost of books, audio, and visual items are also capitalized. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following useful lives:

Building and building improvements	40 years
Furniture and fixtures	10 years
Computers and office equipment	5 years
Library books, audio, and video items	8 years

HARTFORD PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2006

Note 1 - Summary of Significant Accounting Policies (Continued)

Property Tax Revenue - Property taxes are levied on December 1 on the taxable valuation of property located in the Library district as of the preceding December 31. Taxes are considered delinquent on March 1 of the following year, at which time penalties and interest are assessed.

The Library's 2005 ad valorem tax is levied and collectible on December 1, 2005 and is recognized as revenue in the year ended December 31, 2006, when the proceeds of the levy are budgeted and available for the financing of operations.

The 2005 taxable valuation of the library totaled \$84,185,461 on which ad valorem taxes levied consisted of 1.5786 mills for operations.

The Library has agreed to provide services to a portion of Bangor Township. The Van Buren District Library has agreed to remit 10% of the tax revenue it collects from Bangor Township to the Library to compensate the Library for the costs of providing services to Bangor Township residents.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reporting of certain assets, liabilities, revenues, and expenditures during the period. Actual amounts could differ from those estimates.

Note 2 - Reconciliation of Fund Financial Statements to Government-wide Statements

The General Fund's fund balance and the net change in the fund balance differ from net assets and change in net assets reported in the statement of net assets and statement of activities. The difference results primarily from the long-term economic focus of the statement of net assets and the statement of activities versus the current economic focus of the statement of the General Fund balance sheet and statement of revenues, expenditures, and changes in fund balance. The following is a reconciliation of fund balance to net assets and change in fund balance to change in net assets:

Note 3 - Budget Information

The annual budget is prepared by the Library Director and then submitted to the Library Board for adoption. Subsequent amendments are approved by the Library Board during the course of the year. Unexpended appropriations lapse at year end; encumbrances are not included as expenditures. The budget has been prepared in accordance with accounting principles generally accepted in the United States of America. The budget has been adopted on a line item basis, expenditures at this level in excess of amounts budgeted are a violation of Michigan law. A comparison of actual results of operations to the General Fund budget is presented in the required supplemental information.

DECEMBER 31, 2006

Note 6 - Risk Management

The Library is exposed to various risks of loss including property loss, torts, theft, errors and omissions, employee injuries (workers compensation), and medical benefits provided to employees. The Library has purchased commercial insurance for risks of losses due to employee injuries and employee medical claims. The Library participates in the Michigan Township Participating Plan for property and general liability claims.

Note 7 - New Accounting Standard

The Library implemented required accounting standards as of January 1, 2006. The statement implemented was Government Accounting Standards Board Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments. The significant changes in this statement include:

A Management's Discussion and Analysis of the Library's overall financial position and results of operations.

Government-wide financial statements prepared using the full accrual basis of accounting.

Fund financial statements using the modified accrual basis of accounting.

Schedules reconciling the fund financial statements to the government-wide financial statements.
